

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

ORDER NO. 80-54

NPDES NO. CA0037810

ORDER AMENDING ORDER NO. 79-169  
TO ADOPT REVISED WASTE DISCHARGE REQUIREMENTS FOR:

CITY OF PETALUMA  
WATER POLLUTION CONTROL PLANT  
SONOMA COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, (hereinafter Board) finds that:

1. The Board on December 18, 1979, adopted Order No. 79-169 prescribing waste discharge requirements for the City of Petaluma - Water Pollution Control Plant (hereinafter discharger) located south of Petaluma at the Petaluma River. These requirements contained discharge prohibitions, final effluent limitations, a compliance time schedule, interim effluent limitations, receiving water limitations, and pond limitations.
2. The discharger, in a letter dated August 18, 1980, requested modifications to the compliance time schedule due to delays in completing design of the proposed facilities. The discharger further reported in a Design Report dated October 20, 1980 that water reclamation on nearby lands was feasible and design of the project was underway.
3. Based on the documents cited above and testimony received by the Board, the Board hereby finds that a reclamation project is a feasible means of compliance with the discharge prohibition contained in Order No. 79-169.
4. As this project is an NPDES Permit amendment, this Board, pursuant to Water Code Section 13389, is not required to comply with the provisions of Chapter 3 of Division 13 of the Public Resources Code (California Environmental Quality Act).
5. This Board has notified the discharger and interested agencies and persons of its intent to prescribe revised requirements for the City of Petaluma-Water Pollution Control Plant.
6. The Board, in a public meeting, heard and considered all comments pertaining to this discharge.

IT IS HEREBY ORDERED THAT:

- A. Provision E.1., item a through k, on pages 6 and 7 of this Board's Order No. 79-169 is amended to read as follows:

"E. Provisions

1. The discharger shall comply with the following time schedule to achieve compliance with Prohibition A.4., and Effluent Limitation B.1.b.

<u>Task</u>	<u>Completion Date</u>
a. Submit complete step 3 grant application for all facilities necessary to achieve compliance to SWRCB for approval	April 1, 1981
b. Advertise for construction bids	May 1, 1981
c. Award construction contract	June 15, 1981
d. Begin construction	July 1, 1981
e. Complete construction	October 1, 1982
f. Full Compliance	December 1, 1982"

I, Fred H. Dierker, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on November 4, 1980.

FRED H. DIERKER  
Executive Officer
